

Arda

Product Designer

Ankara ↔ Gothenburg

Özdemir

Hi! I'm a product designer based in Gothenburg and Ankara with 5 years of experience in the design industry. I have an academic background in industrial design, professional expertise in UX design, and eagerness in frontend development. Throughout my career, I've had the opportunity to work throughout the entire design lifecycle across diverse industries. I've collaborated closely with cross-functional teams in both consultancy and design agency settings. I'm looking forward to taking on a new challenge!
